NOTICE OF PROPOSED ACTION

April 30, 2008

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes and the Clean Water Act. The Administrator has received an application for renewal of National Pollutant Discharge Elimination System (NPDES) Permit #NV0022691 from the following applicant:

Lake Las Vegas Resort
1605 Lake Las Vegas Parkway
Henderson, NV 89011

Lake Las Vegas Resort is located in Clark County, Nevada and is a 320-acre, private, man-made recreational lake. Lake Las Vegas is supplied with water from Lake Mead. A two-mile stretch of the Lower Las Vegas Wash is conveyed beneath the lake and its earthen embankment dam. The NPDES permit conditions allows the applicant to periodically release water from the lake for the purposes of water quality management. These releases are for the purpose of maintaining the lake's total dissolved solids (TDS) level, which concentrates in the lake due to evaporation. The permit conditions require the monitoring of discharge events to ensure that beneficial uses of the Lower Las Vegas Wash are not impacted from lake management operations. The Division has made the tentative determination to issue (renew) the proposed NPDES permit for a period of five (5) years.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand-delivered or postmarked no later than 5:00 P.M. on June 2, 2008, either in person or by mail to:
